

## *The fake thumb and the envelope*

*Difficulty: \**

*Preparation: \**

*The fake thumb is one of the most used accessories by magicians. You will find two different sizes depending on the size of your thumb.*

*There are many possibilities when using the fake thumb and this effect is one of my favorites.*

*You will wrap your fake thumb already positioned on your thumb with an envelope. You can use a simple piece of paper or a bill to do this trick.*

*Remember to close the envelope tightly to make a tube, in which your fake thumb will have remained.*

*You can now place any small elements of your choice that you can make disappear and appear at will.*
