

### **The Spilled Coffee**

*Difficulty: \**

*Preparation time: \*\**

*For this trick, worthy of the greatest magicians, you will need to prepare a little.*

*You will need a small coffee cup, a sponge, soda or coffee and a large cup, which you can easily find in one of your favorite fast food restaurants.*

*To make it, slip the appropriate sponge into the small cup and remove the bottom of the large cup and attach it over the sponge. I recommend coloring the "bottom of the cup" black.*

*Pour in a little coffee, just enough so that the bottom of the cup can't be seen to hide your mixture.*

*Using your thumb, press the bottom of the large cup in front of your audience to release the liquid that will be absorbed by the sponge. All you have to do is spill the contents of your small cup and get rid of it to move on to another round. You'll make a lasting impression.*

*Tip: You can ask your partner to bring you a coffee. They will actually bring back your prepared cup with the soda inside, which will increase the effect on the audience.*
