

The "fake thumb" accomplice

*Difficulty: **

*Preparation: ***

Having an accomplice in magic can be a considerable asset for the magician. Besides, it allows you to share your magic universe with a close friend.

For this effect, you will use your fake thumb and the accomplice the other one, the one you are not using.

The small fake thumb can be used with the index finger.

Prepare the trick with your accomplice.

Load your partner's thumb before the trick.

Do the "appearance/disappearance" trick as usual, except that your accomplice will oversee the appearance.

Be sure to rehearse with your accomplice before performing the trick in front of an audience. You can also create a little original scenario to make the trick even more interesting.
