

Svengali (preparation)

Difficulty: **

Preparation: **

You may notice that the identical svengali cards (7 of diamonds) are shorter than the cards in the marked deck.

In the video explanation, the svengali card is the 6 of hearts. You will have the 7 of diamonds for your svengali deck.

Remove 16 cards from your marked deck

Remove from your marked deck for example:

- The 7 of clubs, the ace of clubs, the 8 of clubs, the king of clubs.
- Jack of hearts, 7 of hearts, King of hearts, 9 of hearts.
- Jack of spades, 8 of spades, 10 of spades, king of spades.
- King of diamonds, 7 of diamonds, queen of diamonds, 8 of diamonds.

You will have to remove the 7 of diamonds systematically from your marked deck, since it is your svengali card.

You will have to rotate a normal card marked deck and a short card (7 of diamonds svengali) to constitute your deck svengali. You will have 16 cards marked and 16 cards svengali.

On the video, I made my deck svengali with 10 cards from the deck marked and 10 cards svengali.

The possibilities are endless. Wherever the spectator asks you to stop, the chosen card will always be a 7 of diamonds (6 of hearts in the example of the video). You can therefore make predictions worthy of the greatest magicians.
