

Houdini

Difficulty: *

Preparation: *

With the hands tied by the rope and a rubber band in the hand, the magician will make a trick on themselves and the rubber band will be trapped inside the rope.

You will need two rubber bands, a long-sleeved T-shirt or shirt, and a rope or string.

Before you go on stage, place a second rubber band on your wrist, hidden under your shirt sleeve.

Ask a spectator to tie your hands together and then give you a rubber band.

As you turn around, hide the rubber band in your shirt and slide the rubber band from under your sleeve to the middle of the string while facing the audience.
